

Custom made textile specialist
Corporate, image & work wear since 1993

93

bangladesh - china

Since its inception in 1993, Joy Thai has been serving global clients. We enter our third decade and are again proud to be at your service.

We are pleased to offer you an extended range of products and services.

Our main operations are in Bangladesh and China but we now also have manufacturing possibilities in Pakistan, India, Thailand and Turkey. We'll ensure your product will be manufactured where it is most competitive.

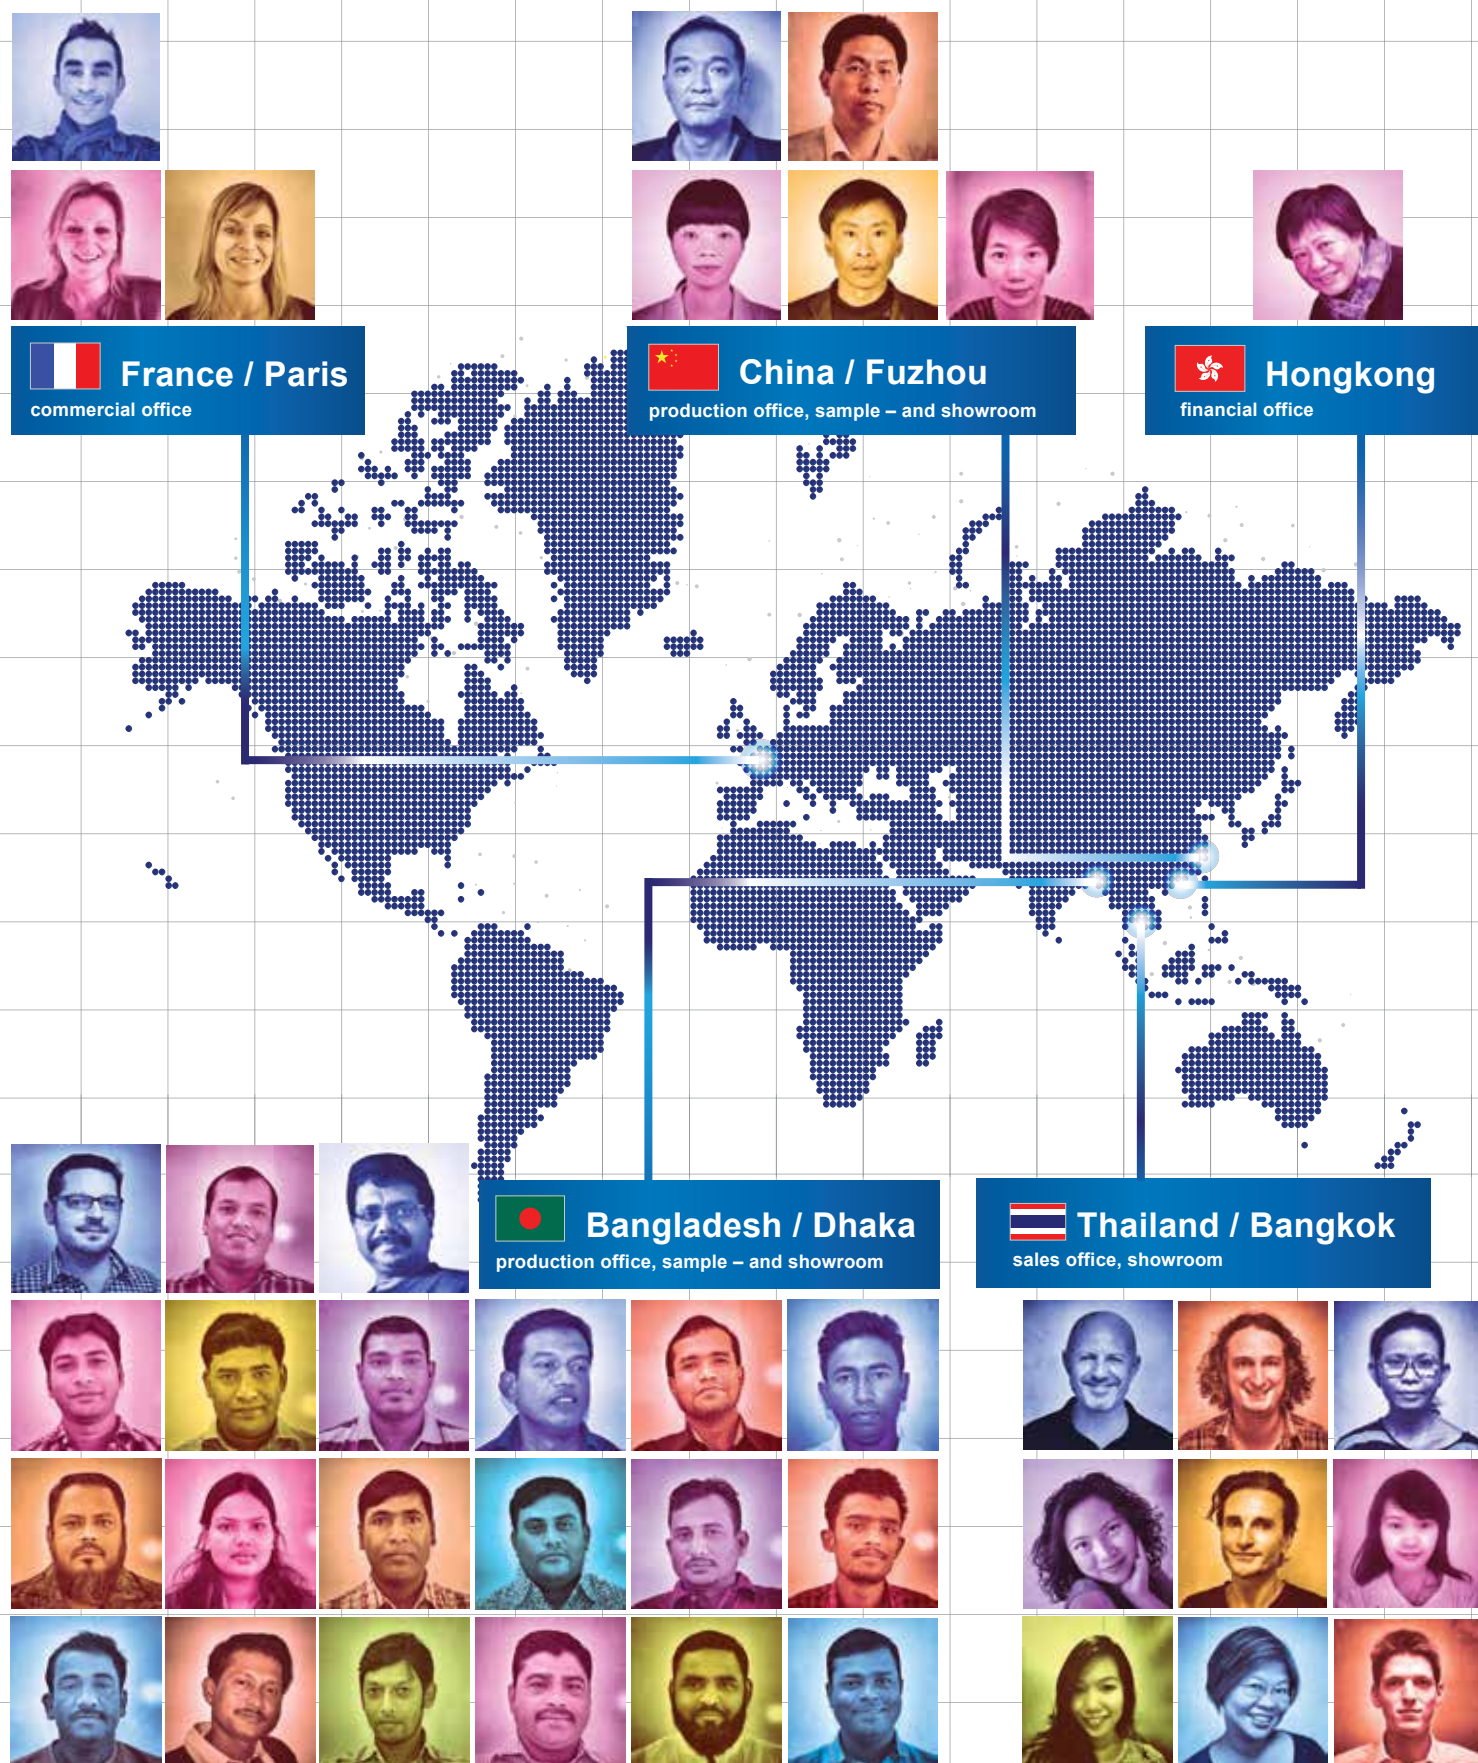

Now our product range includes certified work wear produced out of Bangladesh.

We have enlarged our team of designers to cater to all your design needs.

And last but not least, we have joined forces with a large European stock importer which greatly increases the number of solutions we can offer you. We are especially competitive on large quantity projects.

Joy Thai is a true one-stop-shop for all your textile needs.

Try us!

CUSTOM MADE SERVICE

All our productions are custom made, it is YOU who decides the specifications and how the garment is going to look.

- **Fabrics:** we can supply almost every conceivable type of material within MOQ
- **Colors:** we can produce almost every PMS color, including special dyes such as fluorescent
- **Style:** our technical know-how can help you produce almost any style you want
- **Size:** we can provide size specs and range that best suits your needs
- **Branding:** we offer a wide variety of branding techniques to match your requirements

Of course we are more than happy to give you our expert advise in determining which specifications are most suitable for your particular project/enquiry.

You can count on us to ensure your product will meet the highest standards.

SAFETY AND RESPECT

Operating in Bangladesh since 1993, and China since 2002, we place absolute importance on the safety and general working conditions of our factory employees. We enforce a strict no child-labor policy.

Adhering to the latest health and safety standards, we only work with factories that have at least one of the below certifications:

You are welcome to visit our units, or send your own people for on-site inspections. By working hand in hand, we can improve the overall conditions for factory workers.

We are equally demanding when it comes to product safety. All our products are compliant to the latest REACH directives and are vigorously tested for shrinkage and color fastness. Other tests are available upon request and can be conducted by the agency of your choice.

We offer the possibility to be endorsed by any of the below quality labels:

Send us your requirements in advance, so we can offer the optimum partner unit for your productions.

DESIGN SERVICE

Garment design is an integral part of the service solutions Joythai is offering. This design service is free of charge.

Our team of experienced designers prepare digital design & lay-outs to help you visualize your enquiry. Especially during the earlier stages of a project, this enables you to present concrete ideas to your clients to get the project off the ground.

Furthermore, we will support your running productions with artwork development whenever required, and prepare technical product files which are used during actual productions.

By combining our creativity with our expert knowledge, we will guide you throughout the process.

WORK WEAR FROM BANGLADESH

Joythai is at the forefront of innovation as we have recently partnered up with a leading manufacturer of professional work wear which already has a production set up in Bangladesh.

As such, we can offer a wide variety of tailor-made and fully customized work wear geared towards professional end users. We make use of computerized pattern making to get the most consistent and best fit.

A full range of professional flame retardant and hi-visibility work wear is available.

Fabrics originate from either Pakistan or China, and are shipped to Bangladesh, where the confection takes place by a specially trained workforce, under Joythai supervision and quality control.

All fabrics are certified and garments can be certified at request.

COLLECTIONS

Few things are more troublesome than maintaining consistency in quality, color, and branding over time when producing different items for the same brand with multiples makers.

Joythai is here to make your life much easier. Our extensive experience in developing complete garment collections for renowned European brands dates back to our earliest days.

By carefully selecting the best source of production for each item, and by using our time proven quality procedures, we can ensure consistency across the whole production range. We will take care of the process from start to finish handled by one person only.

BRANDING

One of the most important aspects of any garment is how well the brand conveys its message.

At Joythai, we understand the importance of this and are able to offer you several cutting edge branding techniques that add value to your product. All logos are developed and produced by our long trusted suppliers, ensuring complete control over the quality.

Over the next pages, we'll more specifically look at each category:

BASIC T-SHIRT

KIDS T-SHIRT

You choose....We deliver!

We work with a wide variety of fabric including cotton CV, TC and polyester. Single jersey, double jersey, interlock, 1x1 rib and Bird-eye are the most commonly used fabric constructions.

We can offer a number of special functional fabrics, including wicking (quick-dry), UV and hi-visibility.

1.000 pcs per color, mixed style and sizes

Try our highly fashionable cotton slub fabric in 90-110 gr/m2, it's soft and thin and you'll love it!

POLO SHIRTS

LONG SLEEVE CUT-SEWN POLO

To reduce shrinkage, we can apply a pre-shrunk wash to the fabrics at minimal extra cost.

LADIES POLO

RUGBY POLO

FUNCTIONAL POLO

FASHION POLO

You choose....We deliver!

We use a variety of fabrics, including cotton, CVC, TC and polyester. Pique, single jersey, double jersey and interlock are the most commonly used fabric constructions.

We can offer a number of special functional fabrics, including wicking (quick-dry), UV and hi-visibility.

1.000 pcs per color, mixed style and sizes

SWEATSHIRTS

Try either inside brush for a fleece-like hand feel, or inside terry for a more sporty feel.

You choose....We deliver!

We use a variety of fabrics, including cotton and polyester, or a mix of both. Common mixes are CVC 80/20 and 60/40, as well as TC 65/35.

Suitable fabric weight ranges from 260 to 340 gr/m² for the promotional quality, and up to 420 gr/m² for heavy retail quality.

1.000 pcs per color, mixed style and sizes

SHIRTS

HAWAII SHIRT

Mix some lycra (3%) into the fabric to give your shirt that little extra stretch and comfort.

JERSEY SHIRT

FASHION SHIRT

CHECKERED SHIRT

You choose....We deliver!

We use a variety of fabrics, including 100% cotton, CVC or TC based. Poplin, Twill, and Oxford are the most commonly used fabric constructions.

Various different treatments are possible, of which iron-free and wrinkle-free are most widely used.

1.000 pcs per color and style, mixed sizes

BODYWARMERS

DOWN BODYWARMER

We can also produce Body Warmers from Bangladesh at competitive prices, including GSP Form A (no import duties)!

**LADIES
BODYWARMER**

SAFETY VEST

FLEECE BODYWARMER

You choose....We deliver!

We use a variety of fabrics, including nylon and polyester. Every kind of coating is available to make the fabric more stiff and/or waterproof.

We can also manually insert polyester padding in order to create a nice down-effect, without actually having to use expensive down or feather.

500 pcs per color and style, mixed sizes

PARKAS

We can make use of every type of fabric, please inquire for your preference.
We can add taped seams and waterproof/breathability function on request.

Make a 2-in-1 jacket, 3-in-1 jacket or even 4-in-1 jacket depending on your needs.

500 pcs per color and style, mixed sizes.

WINDBREAKERS

We work with nylon and polyester fabrics, of which 190T and 210T are most common. You can add the coating of your choice, including waterproof function.
